

Brain and Mind Activation CAMP

Empower your child with the Extraocular Vision seminar, conducted by Christiane Heilmann and Raymond Fernando.

A transformative 5-day experience that teaches children to access and utilize their "Inner Screen" and Third Eye.

Children are introduced to techniques that enhance intuition, boost IQ, and enable perception beyond the physical senses. This seminar not only improves academic and personal success but also develops spiritual abilities and self-confidence.

What is EO V ?

EOV teaches children how to use their own life force energy, their mind and their spirit in ways they would never learn in school. Most children and adults use only a relatively small percentage of their mind when engaged in conscious thinking. EO V opens the potential for people to use a much larger percentage as they expand the mind by utilizing images that work with the sub-conscious mind. The image work component of EO V sessions develop intuition, which is a function of the pre-conscious mind - this acts to strengthen the conscious mind.
